Documentary Paragraph

For my documentary, I'm still debating on who in my family to interview. Both my parents speak Spanish, my 11-year-old brother is charging me if I want to interview him and my 17-year-old sister is camera shy. I would interview my best friend but she doesn't live near me and I would have to FaceTime her in order to interview her. I'll see who shall be my victim. Anyways, I would ask them questions during the interview, some questions I might ask are:

- Do you prefer having online classes or having classes in-person?
- How do you feel about being in your home for an extended amount of time?
- Now that you have time on your hands being home and finishing work, is there a hobby that you are able to reconnect to? Or a new hobby you want to start?
- What are your thoughts on the people who still go outside? Expect for the people who go outside to get necessities.
- Do you miss the outside world?
- Who would you go see once the quarantine is lifted? What would you do? How would you spend the day?

These are some of the questions I'll be asking to the person I will interview. I would think of more questions to ask.
