

NEW YORK CITY COLLEGE OF TECHNOLOGY

The Center For Student Accessibility
Library 237

Who We Are

The Center for Student Accessibility is the disabilities service provider at New York City College of Technology. The Center provides support to enrolled students who have documented permanent or temporary disabilities. The Center's primary mission is to support the educational goals for enrolled students with disabilities through access, empowerment, resources, advocacy, collaboration and outreach throughout the College, the University and the community at large. The Center hosts workshops, provides assistive technologies, testing accommodations, tutoring and computer support to students registered with the department.

In addition to providing services and reasonable accommodations to students with disabilities as mandated by Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990 (ADA) and the ADA Amendments Act of 2008, the Center for Student Accessibility works closely with faculty and staff in an advisory capacity and assists in the development of reasonable accommodations that allow students with disabilities full participation in all the programs and activities offered at City Tech while meeting the academic standards maintained by the College.

Unit Director

John Reid Currie

Unit Representatives

Linda Rivera— CUNY Leads Advisor
