

WeBWork Pizza Party!

Thursday December 8, 2016

1 – 2 pm

Room N 1003

In Spring 2017 about a dozen sections of MAT 1275 here at City Tech will be participating in a program called “Opening Gateways” funded by the U.S. Department of Education. The goal is to support student success in mathematics courses that serve as gateways to STEM disciplines, courses that often act as barriers to progress and completion in these disciplines. One component of these special sections is that they use WeBWork for homework (and maybe other activities). WeBWork assignments for MAT 1275 have been developed from scratch by City Tech instructors and were tested in your sections this fall.

Join us as we show our appreciation for all those students using and supporting WeBWork and this important initiative during fall 2016. Many of you provided invaluable feedback which will smooth the path for many sections of future MAT 1275 WeBWork users. Thank you!

Professors Bonanome, Ghezzi, and Parker
