Catalogue Description: An introduction to photography as a fine art and communications medium, from the publication of its invention to the present, among western and non-western practitioners. Illustrated lectures and discussions appraise diverse overlapping functions of photographs and view camera work within the history of art and culture. Changing styles, purposes and techniques are outlined chronologically.

Additional Description for this section: We will examine the use of photography for aesthetic, documentary, and “scientific” purposes, stylistic shifts in photography related to aesthetic concerns, and varying interpretations of subject matter based on social and cultural concerns at specific moments in history. We will also consider the relationship between photography and the visual arts in general, which culminates with the primacy of photography as a medium by the late twentieth century.

Required Textbook: Mary Warner Marien, *Photography, A Cultural History*, 4th Edition, Prentice Hall, 2015 (it is OK to use earlier editions, copies, including earlier editions, are on reserve in the library)

- learn the analytical techniques used by art historians,
- become familiar with key works in the history of photography, the photographers, diverse styles, and working methods,
- become knowledgeable about the major photographic works linked to historical events, intellectual history, and scientific and cultural trends,
- acquire a working knowledge of the specialized vocabulary used in art history,
- enhance their visual literacy and critical thinking skills

TOTAL =

This Total is your Final Grade Average. See *City Tech's Student Handbook* to convert this number to a letter grade.

CLASS PARTICIPATION WILL BE CONSIDERED IN DETERMINING FINAL GRADES.

Exams: Exams are worth 40% of your grade. Exams consist of slide identifications (artist name, title of works, medium, dates, significance of work), short answer questions, comparative essays, and definitions of terms/concepts. Make-up exams will only be given for reasons of documented emergency. Look on the class website for more information on the exam format.

Papers: Papers are worth 35% of your grade. Students are required to write two papers. Information on required papers will be given in **separate handouts**.

You can find the "Grading Rubric for Papers" on the class website under Class Downloads. Your paper grade is an evaluation of content, organization, style, and grammar.

Papers are mandatory, it is nearly impossible to pass the class if you do not turn in BOTH papers.

Response paper

— After reading several essays, you will write a short paper on critical issues in photography.

Exhibition Review

— You will be given a list of approved photography exhibitions in New York City. Choose **one** exhibition to visit and review. Write a review based on your interpretation and analysis.

IMPORTANT NOTES:

— **You must submit both papers to pass this course.** All papers are submitted through **SafeAssign** on Blackboard which checks your paper against a Google-like search engine and other student papers on file. **You will receive 0 points for your paper if the matching rate exceeds 35%.** A matching rate that nears 35% will be carefully checked for plagiarism. Please do not copy and paste from other sources because such practice will adversely affect your grade.

— **Late assignments will lose two (2) points per late day up to 10 weekdays (school days):** 2 points per day will be deducted for assignments submitted after the due date. Late papers will not be accepted after 10 weekdays from the due date. In short, you have almost two weeks to turn in a late assignment. For example, if you submit a homework 10 days after the due date, the assignment will lose 20 points. You cannot submit late assignments after this 10-day period for late work.

Group Project (2 pp per group member): The Group Project is worth 15% of the grade. After midterms, students will be assigned a group to work on a photography presentation. Each group will present their findings in a 7-10 min presentation. Each student will submit a report on the assigned photographer and group effort. Information on the required project will be given in a **separate handout**.

Homework: Homework is worth 10% of the grade. Some homework consists of writing homework posts on the class website. Students are responsible for submitting **homework posts** (min. 200 words). Instructions on how to *post* are located online under **Posting Guidelines**. *Homework is mandatory.*

In-Class Assignments: You will have the opportunity to work in small groups for in-class assignments throughout the semester. *Participation in class exercises is mandatory.*

Extra Credit: You have the option to do extra credit projects worth 1-3 points each. The projects are due by the last lecture. These are short written assignments of approx. 500 words. If you complete all the projects well, it is possible to increase

your final grade average by 10 points. You will find extra credit assignments posted after the midterm and online on the class website.

Attendance: Students are expected to attend all classes. Excessive absences will affect your grade adversely. Excessive lateness will affect your grade.

If you arrive late, please enter the room quietly in order to not disturb your classmates' learning time. It is the student's responsibility to inform the instructor of their late arrival, otherwise, you will be marked absent for the class.

Decorum: Please turn off your cell phones, beepers, alarms, etc. and **no sleeping, internet surfing, text messages**, while in lecture.

Plagiarism and Cheating: Presenting work by others as your own is completely unacceptable. Plagiarism includes using material from books or the Internet without acknowledging the source as well as submitting something written by someone else. **Either will result in a 0 (zero) for that particular assignment/exam. A second instance will result in an automatic F for the course.** See *City Tech's Academic Integrity policy below*.

The Fine Print:

NYCCT ACADEMIC INTEGRITY POLICY

Students and all others who work with information, ideas, texts, images, music, inventions, and other intellectual property owe their audience and sources accuracy and honesty in using, crediting, and citing sources. As a community of intellectual and professional workers, the College recognizes its responsibility for providing instruction in information literacy and academic integrity, offering models of good practice, and responding vigilantly and appropriately to infractions of academic integrity. Accordingly, academic dishonesty is prohibited in The City University of New York and at New York City College of Technology and is punishable by penalties, including failing grades, suspension, and expulsion.

HUMANITIES DEPARTMENT ATTENDANCE POLICY

It is the conviction of the Humanities department that a student who is not in a class for any reason is not receiving the benefit of the education being provided. Missed class time includes not just absences but also latenesses, early departures, and time outside the classroom taken by students during class meeting periods. Missed time impacts any portion of the final grade overtly allocated to participation and/or any grades awarded for activities that relate to presence in class.

REASONABLE ACCOMMODATION STATEMENT

We are committed to providing reasonable accommodation to students with disabilities. Qualified students with disabilities will be provided reasonable academic accommodations if determined eligible by the Center for Student Accessibility. Prior to granting disability accommodations in this course, the instructor must receive written verification of a student's eligibility from the Center, which is located in room A-237. It is the student's responsibility to initiate contact with the Center staff and to follow the established procedures for having the accommodation notice sent to the instructor.

HUMANITIES DIVERSITY STATEMENT

The Humanities Department complies with the college wide nondiscrimination policy and seeks to foster a safe and inclusive learning environment that celebrates diversity in its many forms and enhances our students' ability to be informed, global citizens. Through our example, we demonstrate an appreciation of the rich diversity of world cultures and the unique forms of expression that make us human.
