

Culmination Meetings with Technical Advisor

I, Adewale Adegbemigun understand that it is required for me to meet with my technical advisor at least three times throughout the semester to discuss my culmination project. Each meeting should be at least 30 min. unless the technical advisor determines that a shorter meeting is adequate. I also understand that after each meeting, I must present this form to the instructor of the course and also upload it on my ePortfolio. I will be penalized in the course if I do not fulfill these tasks.

<p>We met virtually, and discussed Adewale's project. Though our section of ENT 4499 has only met three times, he has already made some impressive scenes with his skills in graphics and animation. He has modified the storyline from a big battle/war to a hero in his helicopter and automobile. He wishes to write and direct films in the future. This is a good way to communicate with his future clients and teams as it is like a moving storyboard. A very good start!</p>

Via zoom, I met with Adewale. He showed me a 2 min. long work-in-progress film. It is coming along. He plans to produce a 5 min. piece this semester. He demonstrated how he create some of the scenes, and so I suggested to incorporate it for his 10 min. presentation at the end of the semester. His project is complex, and so it is a challenge itself to design a 10 min. only presentation.

<p>We met virtually, and discussed Adewale's project. He showed me about a 1.5 minutes long, improved segment. We then, discussed how he could structure his 10 min. presentation, which is scheduled for the second week of December. My suggestions is this:</p> <p>Introduction</p> <ul style="list-style-type: none"> - 30 seconds – 1 min. of verbal introduction, - 30 seconds of a scene to show, just playback without talking (1 min. total) <p>Three major points</p> <ol style="list-style-type: none"> 1. His roles as writer/director/storyboard artist, mention he is using an existing game, but is creating his own moving storyboard based on his own writing (2.5 min.) 2. Which software he used and how for post-production video, including Adobe Premiere, AfterEffects, show at least some screenshots (2.5 minutes) 3. Sound: He composed the original music, play music for 15 - 20 seconds, folly (show pictures, play how the sound effects were applied), sound mix (2.5 minutes) 4. Very briefly talk about schedule & budget (30 seconds) 5. Conclusion: Summarize what he just presented, state the reasons why he produced this project, and how this experience will help his future career path. (1 min.) <p>Total Running Time: 10 min.!</p> <p>We should meet one more time when he is prepared for the presentation.</p>
