College is ~~not~~ just wasting time. I disagree with them because college helps you to get a good job if you study hard. Without education we would believe everything we heard because we wouldn't know any better. ~~Just knowing~~ how to read and write allows us to question what we hear and to stand up for what we believe in.

✓ ~~Shakespeare class is important to learn difficult language~~ Expanding your brain is invaluable and makes for an educated society. A student taking this class will learn how to decode, absorb, and understand difficult language in order to understand old Bill Shakespeare's stories, while gaining ~~new~~ perspectives on what make people think that has stood the test for time. In a frank article he mentions that, "It's a foolish to belittle what those for us in class got from Shakespeare and from her illumination of his work." Some classes let you to understand different meanings of

✓ ~~Some people don't want to be engineers they want to study on liberal arts~~ In a frank article he mentions that, "Michael Roth, the president of Wesleyan University documented as much in his 2014 book Beyond the University: Why Liberal Education Matters." It's not all about liberal
