Gennessy Palma

Gennessy Scarlet Productions

## Overview

For the final project I would like to capture something familiar yet unseen to many, nature. Seen by the eye yet unseen to the general public, why is that? Because everyone is living a stressful life in the city, we focus too much on the materialistic aspects of life failing to “stop and smell the flowers.” Now and days no one appreciates the beauty that Mother Nature sets upon us, through this final project, I would like to show the people how the world looks in my eyes, even in winter, where everyone sees dullness, I see color.

## Goals

1. To create stunning images that capture the essence of Nature.
2. To give the audience something appealing to look at, we see so much monstrosity in the earth going on everyday, to see something colorful and light for a change would be almost serene.

## Specifications

This project will be photographed both indoors within the class studio and outside. My vision is to scout the for flowers remaining and to show the beauty and color of our mother earth.
