I have a very strong interest in the Ratings Research internship position at ABC Television Group. I believe that I can use my minimal work experience to an advantage, in that I am eager to add new skills and develop a deeper understanding of the professional working field. My drive to learn new things are always kicked into high gear, especially when the opportunity to work for a company that has a great involvement in the television industry. With less than a year from completing my Bachelor of technology degree in Communication design in the module of graphic design, I believe this opportunity will help me further get an understanding of what I can provide with my skillset.

My professional area of interest revolve around the television industry, it gives me great joy doing anything or experiencing anything that is relating to television because it is a form of art that has no match, unique in its own way. That is what makes it captivating, to see a form of art, knowing that a lot of hard work has been sacrificed to make sure that great television is produced for the audience to enjoy and be entertained. That is the passion I have and I want to share it with those who have that same passion.

This opportunity at the internship will definitely benefit me in ways I believe will be invaluable, an opportunity to be involved in the television industry will provide me with the skills I need to succeed in my passion. Thank you for considering this gracious opportunity and I look forward to hearing from you.

Respectfully yours,

Andrew Ko
