Subject: Book Designer part time

To whom it may concern:

I am very interested in applying book designer for part time in your company. Personally, I think I fit this position a lot. I am very passionate about book design because I am a girl who loves book very much. It will be a wonderful thing for me to design books.

I do possess designing skills. With two years of training in school, I am capable of using Indesign, the software that uses to design books, alone with other two software such as Photoshop and illustrator.

One of my personalities is I am very responsible to what I do. I will finish my work on time and act on a respectful manner. I believe that I can do a good job for this position.

I hope that you can give me an opportunity to work for you, and make a consideration about me for this position. I am looking forward to meet you in the future. If you have any question, you are more than welcome to call me at 646-427-5403.
Sincerely,

Alina Kong
