- **Fairytale:** The 12 Dancing Princesses
- **Setting:** the 1990s in New York City where the “12 Dancing Princesses” is an all-female dance crew with each member using code names that relate to a specific animal/insect
- **Main Character:** the main character is Lucinda Ignazio/“Lupa”, a 16 year old girl who sneaks out every night to join her crew on their many outings and battles against other dance crews. Lucinda comes from a two-person family where she lies to her father, Eduardo, about her nightly outings and her father tries to hire a senior private investigator, Hern, to learn what she’s doing at night.
- **Conflict:** The main conflict is between Lucinda and her father, Eduardo, as they have a strained relationship as Lucinda was closer to her late mother and Eduardo struggles to connect with his daughter.
