

Culmination Meetings with Technical Advisor

We, Yamil Gil, Aaron Li, Zakareia Masboob, and Jorge Peralta understand that it is required for me to meet with my technical advisor at least three times throughout the semester to discuss my culmination project. Each meeting should be at least 30 min. unless the technical advisor determines that a shorter meeting is adequate. I also understand that after each meeting, I must present this form to the instructor of the course and also upload it on my ePortfolio. I will be penalized in the course if I do not fulfill these tasks.

This was the third meeting. We reviewed some assembled footage for the first time. It is still missing some shots, where a black screen appeared. Apart from them, I made some suggestions on what they could still film and add such as LS of Brooklyn at the beginning, a funeral segment, which can be brief, yet is needed. The kitchen scene is rather long, but it is interesting to see the cooking itself. With clever editing like further jump cuts, this can be intriguing. Surprisingly, the almost usable running footage has good potential now. If it is shown silently, it can be effective. That was the impression that I got in today's meeting. Yamil (lighting) and Aaron (editor) are the only students who are enrolled in ENT 4499 this semester. My suggestion is to edit what exists for their presentation. At the same time, I also recommend that they state they plan to film more footage in the near future to keep working on this film. Zack and Jorge will be in the course next semester, and so I perceive this as an ongoing project.
