**Culmination Meetings with Technical Advisor**

We, Yamil Gil, Aaron Li, Zakareia Masboob, and Jorge Peralta understand that it is required for me to meet with my technical advisor at least three times throughout the semester to discuss my culmination project. Each meeting should be at least 30 min. unless the technical advisor determines that a shorter meeting is adequate. I also understand that after each meeting, I must present this form to the instructor of the course and also upload it on my ePortfolio. I will be penalized in the course if I do not fulfill these tasks.

11/2/21          Aaron Li

Date                                         Signature of Culmination Student(s)

| Via zoom, I met with Yamil Gil, Aaron Li, Zakareia Masboob, and Jorge Peralta. This was our first meeting after the approval of their project proposal(s). The team has had three days of production thus far. This coming weekend, they plan to have their final filming day(s). I may still suggest to shoot some B-rolls afterwards, but as of today, this production is on schedule. Some of the footage should have been shot on a tripod, not handheld. Some of the moving shots are nicely done, but some of the B-rolls should have been static, especially in the footage of playground and trees in the park. Then, one of the challenges of this film is it is not certain how much viewers would understand the message of each scene without much dialog. I personally like the approach for the film to convey inner feelings of one individual. Pacing usually plays a major role in a story like this… I look forward to our next meeting. | | | |
