2. Leonard Benardo ,Jennifer Weiss- Brooklyn by name: how the neighborhoods, streets, parks, bridges, and more got their names 2006

Brooklyn is one of the historical borough in New York. Its park, Street and buildings are full of history. This book takes the reader to ride of Brooklyn's textured past. It talked about Canaries Indians, the arrival of Dutch and how the English took over this area. It also shares the tale about the poets, philosophers, baseball heroes, diplomats, warriors, and saints who have left their imprint on this historical borough. This is a great source for students, teachers, and tourists to learn about Brooklyn.

3. Robinson's Atlas of the city of Brooklyn, Wards 1, 3,4,5,6 & II, New York, published 1886

This is a map of 1886. From 1803-1886 we can see a huge difference in population. one of the main reason for huge population growth was opening of Brooklyn bridge in 1883.in 1886 there were very few frame houses left and large number of brick or stone building were constructed, this map is also showing the name of the land owner. This map highlighting the fact how some street were named after the landowner. Some street doesn't have any existence now.

This is a very important picture of Talman Street. This picture was taken during 1930 by Bernice Abbot. This Street was demolished due to the construction of Brooklyn Queens Expressway and the building of Farragut houses. From this picture we got the idea of Talman Street which was a poor neighborhood with a few wood-frame houses
