

SITE REPORT #2B

Aylin Cruz

Based on your observations at the Brooklyn Museum, **develop a complex research question** about the relationship between 1 piece of art that you viewed and a social or political issue.

Remember, your research question should be specific and researchable.

Research Question:

The Brooklyn Museum feature artwork from *the Age of Black Power* from 1963-1983. Is there more art exhibition or movement that directly address the unjust social conditions facing Black Americans?

Find 2 sources. *For this report, one of your sources MUST be an academic journal article. Your other source can be a news article, internet source, or book.

1 source should have to do with the **artwork, artist, artistic style, or some element of the work** you chose. For example, if you were interested in learning more about realistic photography depicting women engaged in domestic activities, you might search for sources about “domestic imagery AND photography” or “realistic photography” rather than sources about the specific artist.

1 source should be about the **social / political issue** that is articulated in your research question. This source may or may not have to do with art.

Write an MLA citation for each source:

Describe the process you used to find these sources including any **keywords** and the **specific search engine or tool** you used to search.

For the first source I used the database Communication and mass media complete EBSCO. I was looking for an academic journal that talks about the different social movements that are directly addressed to the African American community. Some of the keywords I used was african americans or black americans or blacks as well from movement or art exhibition. The second source was an internet source. The keywords that I used to get the source was Black empowerment movements.

In a sentence or 2, describe the main point of each source. Then consider: how do these sources address all or part of your research question?

Source 1

The main point of the first source is that the journal article is that it states that the civil right moment didn't end with the death of Martin Luther king. In fact African American have still struggle to have fair and equal justice. Historical events like reconstruction era and the civil rights movements in the 1950-60s, to then the black power movement 1960-70 are all moment that relate to the Black Lives Matter.

Source 2

The main point of the second source is a list of all the moment that are addressing some kind of support of the African American community. The most popular movement is the Black Lives Matter. But there other like Black girls code, NAACP,Blackout for human right, ect.

Describe ways the two sources you chose are similar and different. Would it be difficult to integrate these two sources into a single writing assignment? Why or why not?

The two sources are similar because the main focus is the movements at are addressing the African American community. The first one explained how other historical event relate to the moment of today's time like Black lives Matter. The second on some off a list of other movement. Personally i didn't know other movement besides Black Lives Matter. For example Blackout of Human right is a group that curates a unique way to protest the repetitive inattention to the work of black artists by tuning out from events like the Academy Awards.

What other sources or further information would you need to answer your question? Where would you look for that information?

Other sources or further information that would help answer this question is to find an article that show the impact of this movements. If these movement are helping the African American community. What are other ways for the public to be more aware of this movement?
