

ARCH 2330 BUILDING TECHNOLOGY III

Assignment Name: Team Interviews

Computer Program(s): OpenLab, Digital Camera

Student Learning Objectives:

Upon successful completion of this assignment, the student will:

1. Become familiar with their team mates.
2. Successfully post the results of their student interview.

Assessment:

To evaluate the student's achievement of the learning objectives, the professor will do the following:

1. Evaluate the students ability to interview and write about their teammate.
2. Evaluate the students ability to complete & posts assignments correctly and on time.

Process:

1. Take turns asking & answering the following questions with one of your team mates. You will have only 2 minutes to answer. Take good notes.
2. Take a digital photo of your teammate.
3. Post both the digital photo and a well composed interview on the teams OpenLab website.

Questions: (there are no wrong answers!)

1. What made you decide to study architecture?
2. What do you consider your greatest strength that you can lend to your team?
3. What do you hope most to learn during this semester?

About My Team

This team is composed by the following members:

[REDACTED], who was attracted to Architecture since she was just a little girls, wondering how a building was compound, how the electric cables go in, how every opening and how the ceiling was made. She likes to paint, dance and spend time with her friends. As a student and a team member her greatest strength is determination; when is has set up a goal, she achieves it no matter the obstacle. She likes to cooperate and also have everything well done if not perfect. In addition, as a student and as a team member what she most wants to improve is her knowledge in any design program that her major required such as CADD.

[REDACTED] whose Father is the one that introduced him to architecture; he is an Architect himself. He has always enjoyed watching him designing his buildings, then bringing them to life. Moreover, Jordan finds his father as an icon and wish to be just like him in the future. He also loves architecture. He likes any spectacular buildings, bridges, and has always dreamed of building a building of his own. Furthermore, he enjoys doing a Brazilian martial art, called Capoeira and has been practicing for around 6 years now, hanging out with friend, and just relaxing. In addition, He is very outgoing, determined, and will do whatever it takes to get the job done. Also, he intends to improve his awareness in aspects such as being knowledgeable of CADD and Rivet programs.
