

### Introduction & Attendance

- Agenda Overview
- Attendance

### Activity 1

- Overview on the purpose of Door Schedules & Related Drawings
  - Discussion of Room and Door Numbering
  - Numbering by Bay not by room – skipping numbers allows for modifications
  - Related drawings to describe a door – interior elevation, jamb, hinge, head, sill details
  - Hardware sets (left & right handedness) etc.
  - How detailing of doors is related to wall construction. **GWB vs. Concrete Block**

### Activity 2

- Revit Tutorial on Room & Door Numbering
- Revit Tutorial on Door Schedules
  - Door Schedule – All
  - Format Schedule on sheet
  - Duplicate and Filter for individual floors

### Wrap-Up - Assignments and Deadlines

- Completion of Room & Door Numbering
- Completion of Door Schedules
- Update Architectural Set of Drawings as needed
