The image shows the Revit interface with the 'Modify Schedule/Quantities' dialog box open over a table of door schedules. The 'Schedule Properties' dialog box is also open, showing the 'Fields' tab. The 'Available fields' list includes Assembly Code, Assembly Description, Assembly Name, Comments, Construction Type, Core Material, Cost, Cost (by manufacturer), Count, Cut Lines, and Description. The 'Scheduled fields (in order)' list includes Family and Type, Fire Rating, Level, and Mark. Red arrows indicate the flow of actions: adding fields, changing their order, and confirming changes.
