

Chapter 2

The Building 2.02

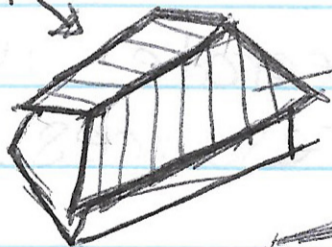

- Architecture & building construction are not the same thing!
- There ARE MANY DIFFERENT METHODS to understand
- There are conceptual systems of order.
 - scale
 - proportion
 - organization of interior space
 - sensible qualities for the building.

SYSTEM

- structural system - the superstructure is the vertical extension

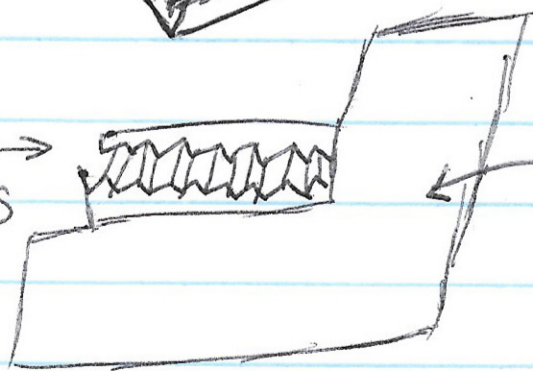

There are many different types of groups:

(B) The shell

Roof system.

(C) the interiors

floor system

(E) (D) Equipment & furnishings

(D) Services
