

# CHAPTER 12, PP. 12.02 - 12.05, 12.08 - 12.09

Concrete is made by mixing cement and various mineral aggregates with sufficient water to cause the cement to set and bind the entire mass.

- Cement
- WATER - light-weight concrete
- Aggregate - Add mixtures

## Bricks

Brick is a masonry unit of clay, formed into a rectangular prism while plastic and hardened by firing in a kiln or drying in the sun.
