

Name _____

Worksheet #1

Directions: Answer all of the questions below based on the plan diagram provided.

Property size 150 feet deep x 100 feet wide

Front Setback 20 feet

Rear Setback 30 feet

Side 1 Setback 10 feet

Side 2 Setback 15 feet

1. What is the total square footage of the lot?

2. After considering the setbacks what is the total buildable area?

3. The property owner wishes to build a fence along three edges of the property including the two sides and the back? How long is the fence?

4. If the Open Space Ratio (OSR) is 20 or 20% of the lot? What is the open space requirement?

5. Considering the setbacks and the OSR above which of the two is more restrictive and what is the maximum allowable footprint of the building?
