

Using Themes: You can use a “Theme” to change the way a website looks. Select “Themes” from the dropdown menu at the top of your website or from the Dashboard.

Chose a Theme: Select from one of the preset Themes to change the look of your website.

Activate a Theme: After you activate a Theme it will change the look of your site.

Notes: In addition to changing the graphic look of your site different Themes can change where different items, including category listings or link listings are displayed or your site are located.
