

Adding Pages: Pages can be used to organize information on your OpenLab website. Select **"Add New"** from either the menu on the left or on top.

Name & Media: The name will show on the menus so keep it short. You can edit a page either in **"Visual"** mode or **"Text"** mode. Text mode allows you to see and edit the HTML code. You can also include **"Media"** in the form of documents or images.

Menus & Pages: Page names are displayed in the menus. Keep names short so they fit!

Parent Pages: To organize you can setup a hierarchy of pages by using **Parent Pages**
