

Accessing the Academic Departmental Lab Computers

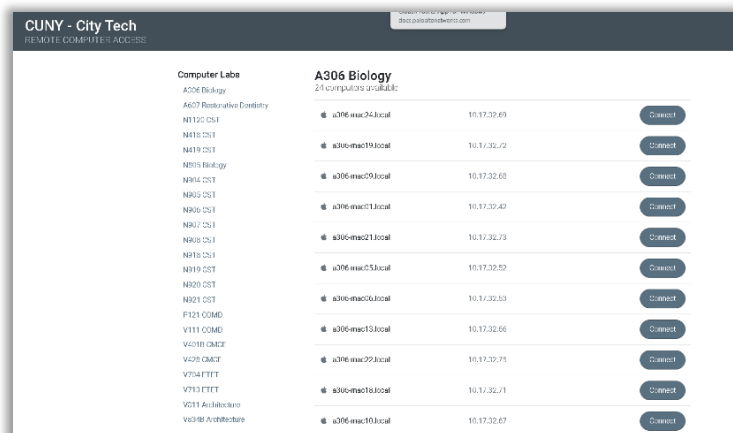

1. Go to <http://www.citytech.cuny.edu/virtual-lab/>
2. Set up access to the Campus VPN: From the link above, download the PDF that corresponds to your device type and follow the instructions provided. (hint: Your CityTech AD username is your email prefix. Reset your password [here](#), if you don't know it)
3. Once the VPN is set up, return to the *Academic Departmental Labs* section and click on the **How To Connect** button.

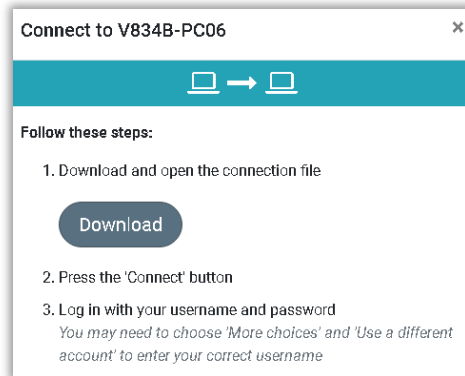

4. A list of available workstations will appear. Under *Computer Labs*, select one of the *Architecture* computer labs.

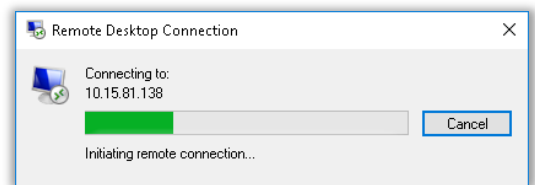

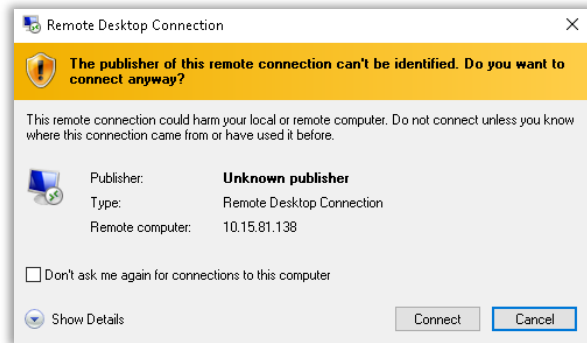

5. Choose any available computer under the *Architecture* labs and click **Connect**.

- You will be prompted to download an RDP application. Click **Download** to save the file to your computer and **Run** it.

- Click **Connect** to establish a connection

- Enter the following as your username and password:

Username: ArchTech\ + your CityTech Email Prefix

Password: EMPLID

Example:

*For student John Doe, with CityTech email John.Doe@mail.citytech.cuny.edu and EMPLID number 12345678, his username will be **ArchTech\John.Doe** and password will be **12345678***

If you're having trouble connecting to our lab computers, please contact IT Helpdesk through [our website](#) or [submit a ticket](#) and our IT staffs will reach out to you as soon as possible.
