## Adding Default Architecture Template to Revit 2024 by Prof. Paul King/Architecture

Check if template is missing. Run Revit and then select New > Project

If only choices are Imperial and Metric Multi-discipline the template is not accessible

Creates a Revit model file	Template file	
	Imperial Multi-discipline Browse	
Li New		- Calibina
AMILIES	QMetric Multi-discipline  Project  Project template	
😂 Open	OK Cancel Help	Electrical

Be certain the template is installed on the PC. Navigate to the following path:

C:\ProgramData\Autodesk\RVT 2024\Templates\English-Imperial

This is a hidden directory - make sure it is visible before continuing

Hardware	*	default	C:\ProgramData\Autodesk\RVT 2024\Temp	
File Locations	-			
Rendering				
Check Spelling	Default	path for user files:	<u>.</u>	

Rename "default" as "Architecture Default" then select OK

Options	×	<
General	Project templates: The templates display in a list when you create a new project.	
Colors		
Hardware	Metric Multi-discip C:\ProgramData\Autodesk\RVT 2024\Temp	
File Locations		
Rendering		
Check Spelling	Lefault path for user files:	

Confirm that template is setup correctly by starting a new project file.

First close any open Revit File

File	Architecture	Structure	Steel	Precast	Systems	Insert
	<mark>ð</mark> Þ	Recer	nt Docum	ients		
	Close	Close (Ctr	rl+W)	1	Options	Exit Revit

Next create a new project file New > Project

## If setup correctly the new value is "Architecture Default" - close and exit Revit
