

My clients are Chris and Kate; Chris is a known guitarst and Kate is a Stamp collector as well as a model. They have 2 kids name Edith and Martin along with a brown lab named Lucky. They both love modern architecture with a great amount of spacing and feel strongly about adding green sus-tainable energy in their home.

Chris needs a studio to produce his music and a big terrace to reflect his thoughts to create his music. Kate on the other hand needs a walk in closet for her clothes as well as a room for stamp collections. They also need a entertainment room for their kids to relax in and rooms with alot of natural lighting.
