ONE GIRL COOKIES

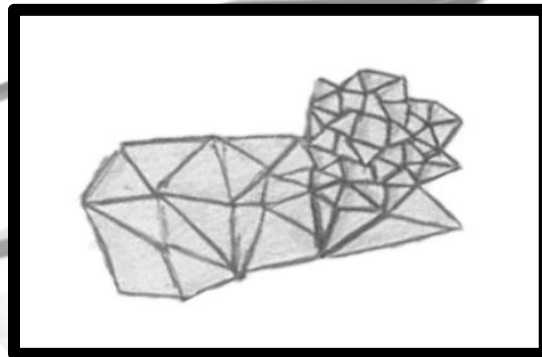

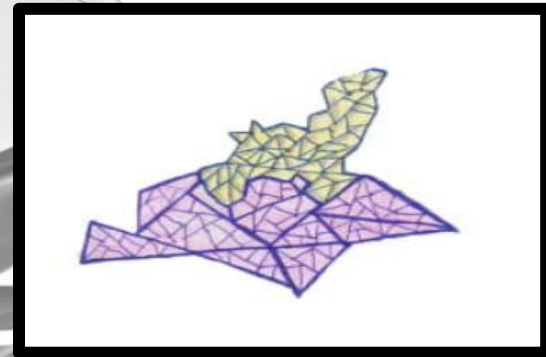

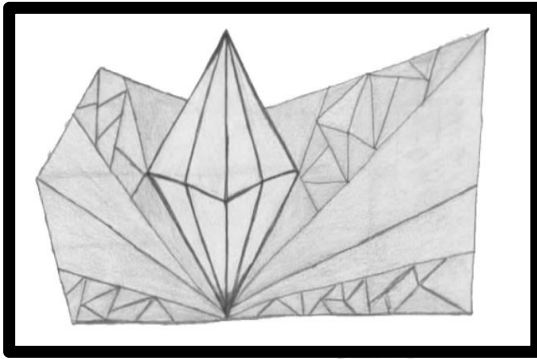

68 Dean St.
Cobble Hill Brooklyn, NY,

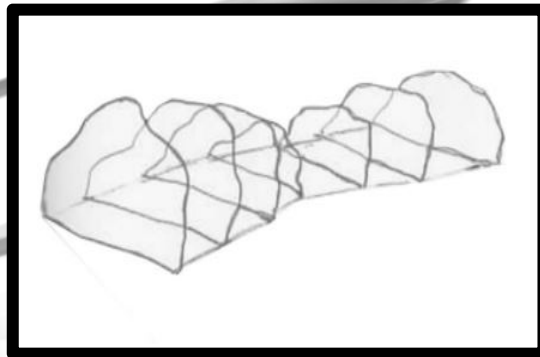

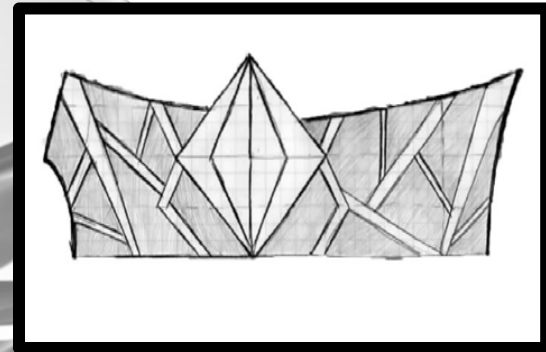

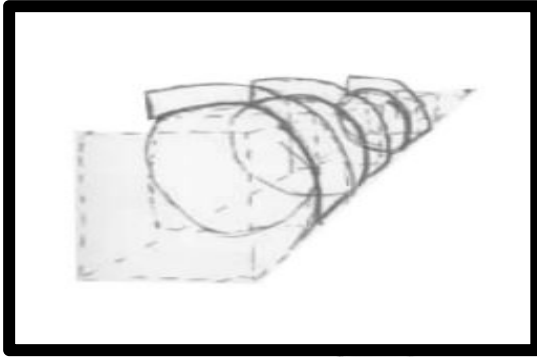

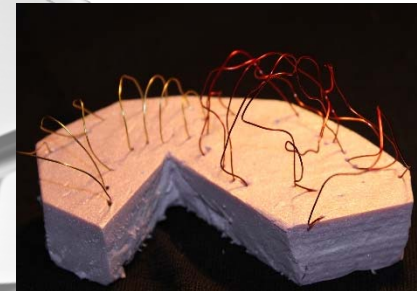

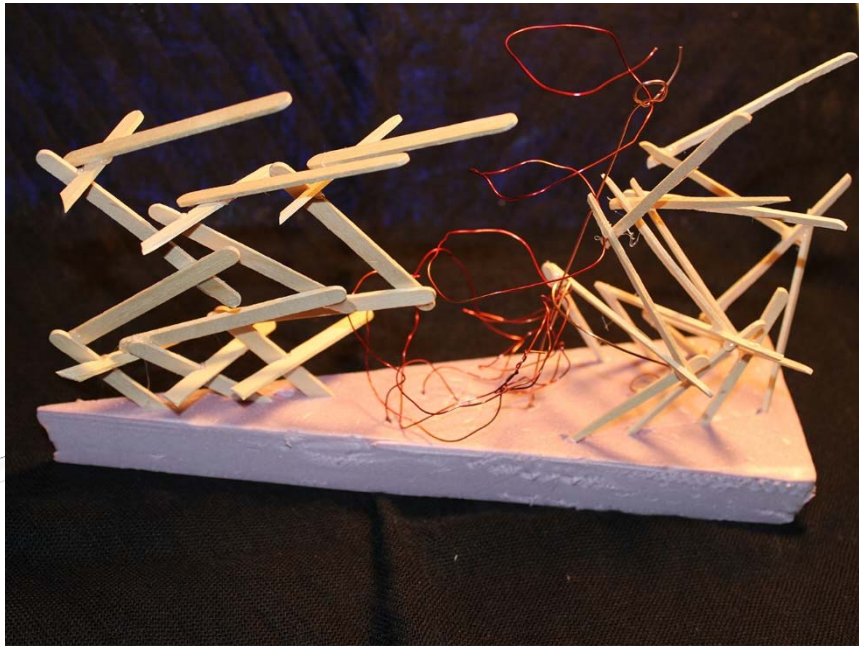

- Tucked away on a quiet, tree-lined street is One Girl Cookies: bakery and café.
- Famous for its gorgeous bite-sized cookies, moist cakes, seasonal pies, tarts and whoopie pies.
- The treats come packed in little brown gift boxes that can be customized (with photos, vintage papers, color-themed details, and flourishes of fancy ribbons) for special birthdays and celebrations.
- The aqua hued walls, patterned wallpaper, cut crystal globe lights and the other vintage details are perfectly suited to the neighborhood. Blown up sepia-toned vintage family photos and a hand painted family tree warm the walls.
- The enlarged family photos and division of the space works best in the design of the store. The continuous aqua-blue color of the exterior and the interior walls helps to unite the space and contrast with the rest of the surrounding facades.
