Make up artist spends a lot of time in the kitchen, pianist spends a lot of time practicing the piano. The family enjoys having movie nights when ever possible. They enjoy having time with their twins but also make time for their own. Twins can share a room for now, but in the future they will each need a room for themselves. Visitor's room is also needed since we have family who often come over. Especially during holidays when the whole family comes over. We will need 4 or 5 rooms. Make-up Artists works in the morning for a professional photographer and has the afternoon w. her twins. The pianist works part time as a teacher & other day's works at a 5 star restaurant in the city, performing for the rich. Most of his work is in the afternoon at the restaurant.
