# INTRODUCTION

*This is an introduction of Photoshop Workshop of how to apply materials and render a 2D floor plan*

# Hatching Walls W/ Adjustment Layer (Solid Color)

1. Select the Wall Regent using the selection Tools
2. On the layer Tab, select the Odjustment **Layer > Solid Color**.
3. Pick the color.

**NOTE:** That will create a new layer with selected color and masking layer

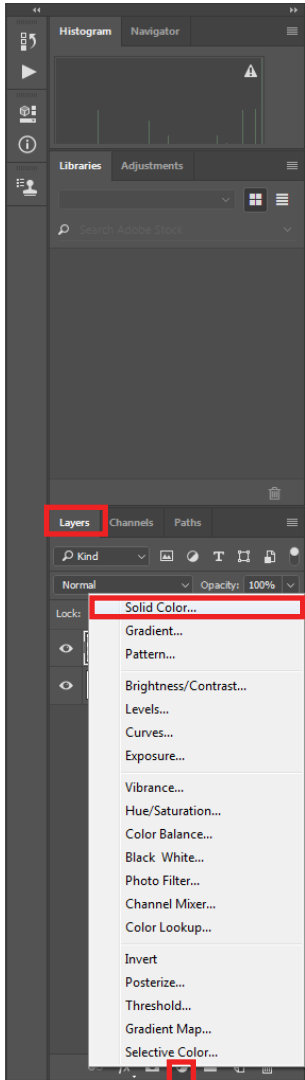

Fig. 1 -1

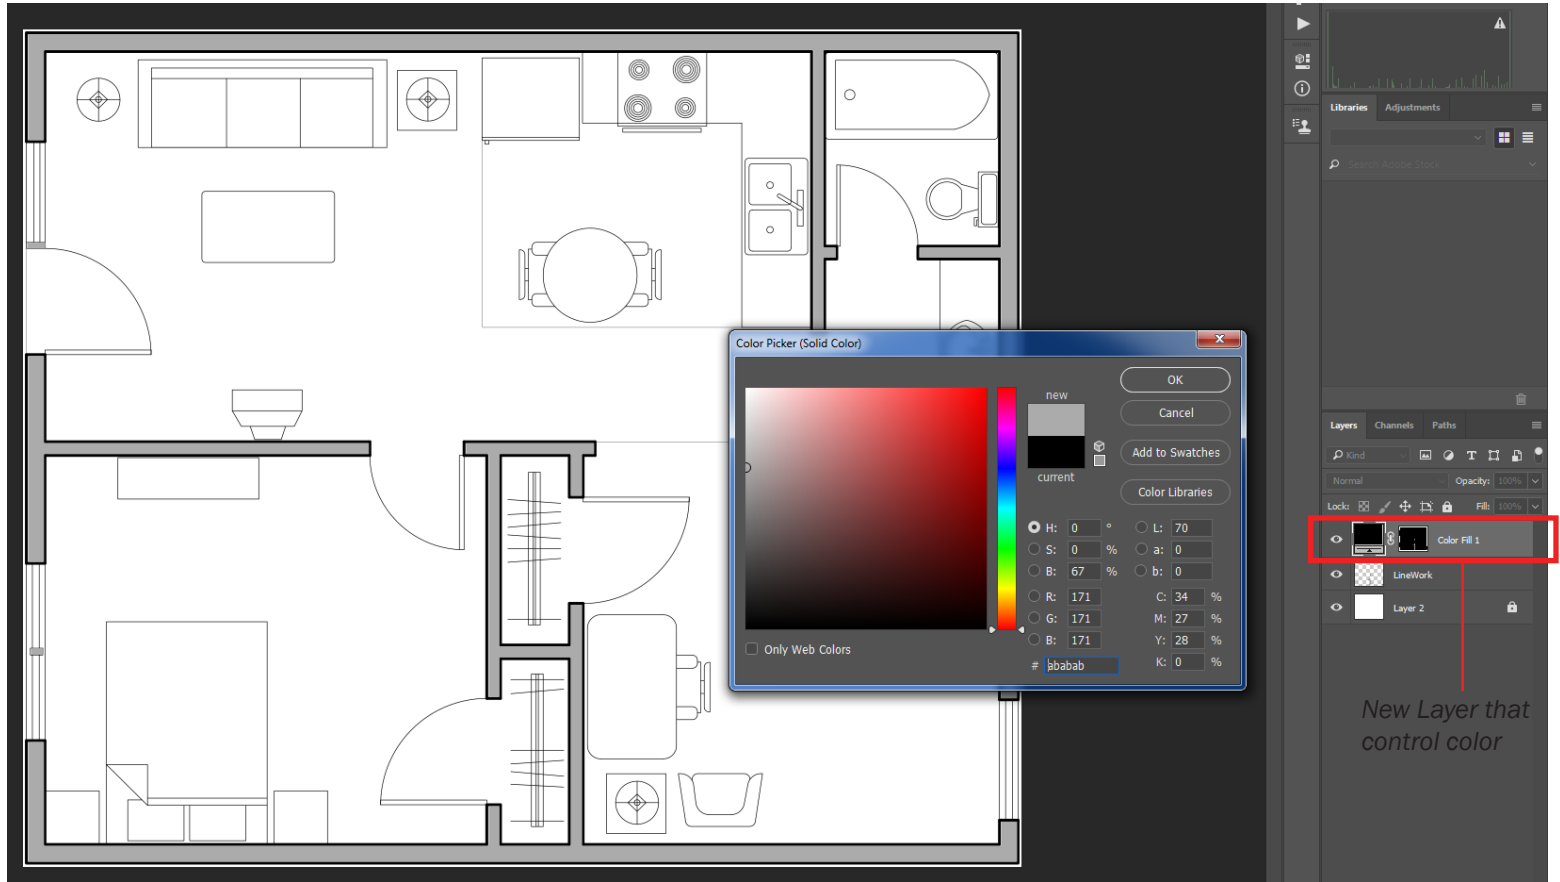

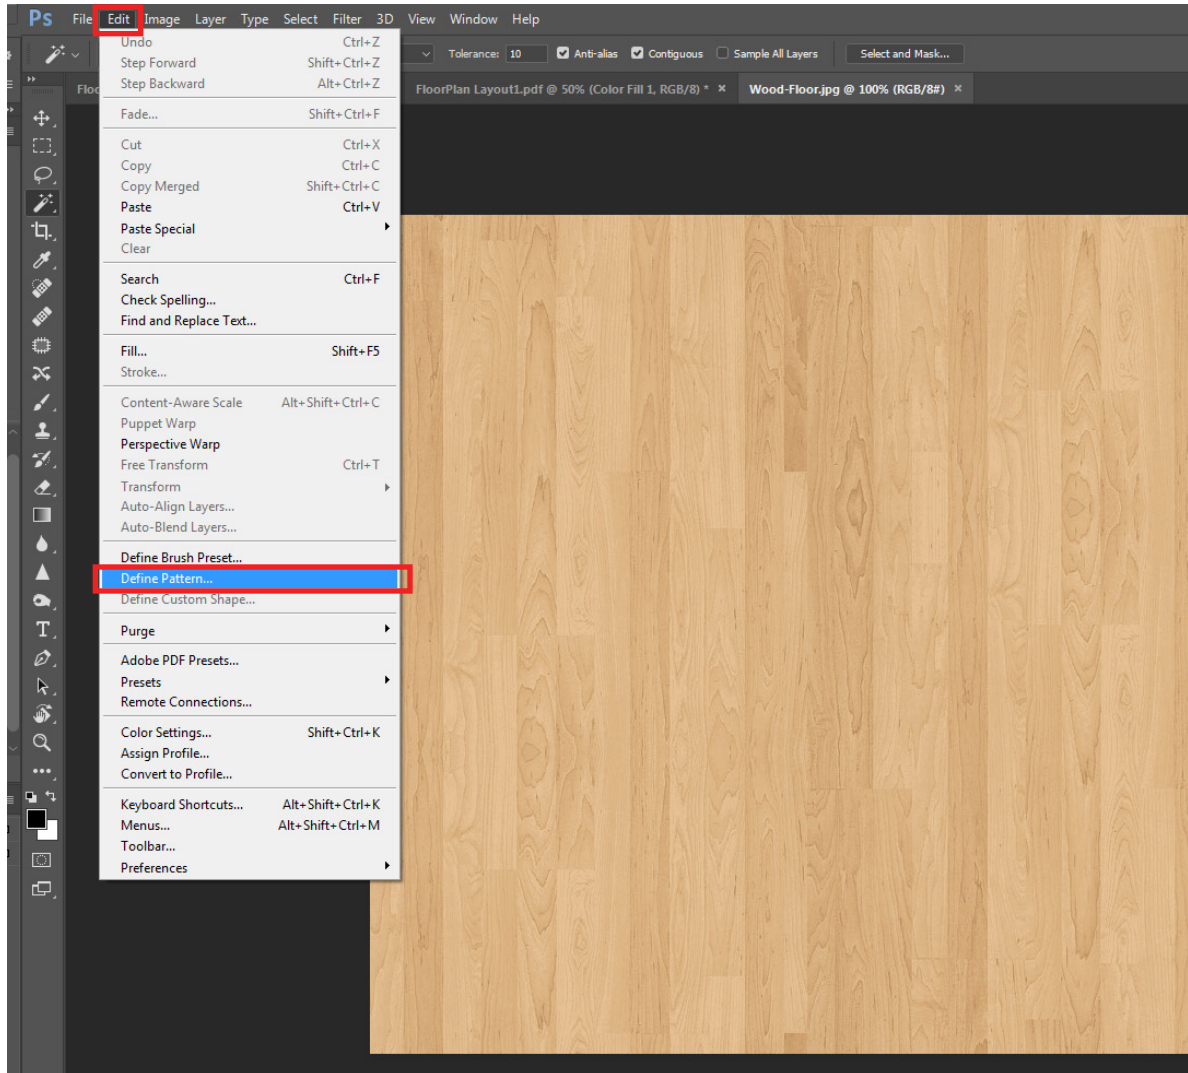

Fig. 2 -2

## Pattern W/ Adjustment Layer (Pattern Layer)

**NOTE:** its necessary to load the Pattern into the Photoshop internal Pattern library

1. Open the Pattern as individual photoshop file
2. **Edit > Define Pattern**
3. **Name the Pattern, Save (OK)**

# Pattern W/ Adjustment Layer (Pattern Layer)

**NOTE:** Select the regent where you need to apply the pattern

1. Select the regent by using the selection tools
2. On the Layer Tab click on **Adjustment Layer > Pattern...**
3. Pick the Pattern

Fig. 4 -1

Fig. 3 -2

# Furniture Adjustment Layer W/ Shadows

**NOTE: Select the regent where you need to apply Solid color and / Shadow**

1. Select the regent by using the selection tools
2. On layer Tab, **adjustment Layer > Solid Color** ( That will create a new Layer)
3. On the new Layer **double Right Click**
4. On the Layer Style check **Inner Shadow**
5. Pick the angle and UNCHECK “Use GLobal Light”

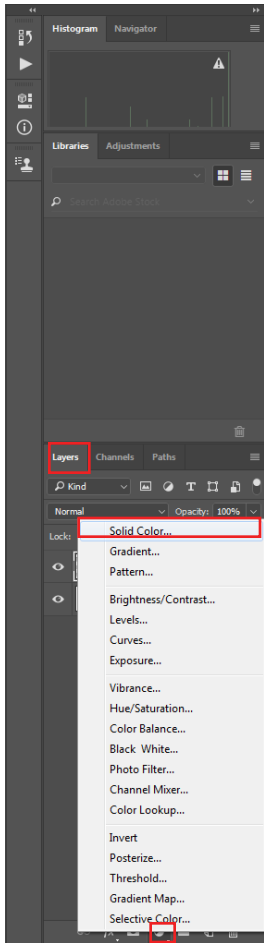

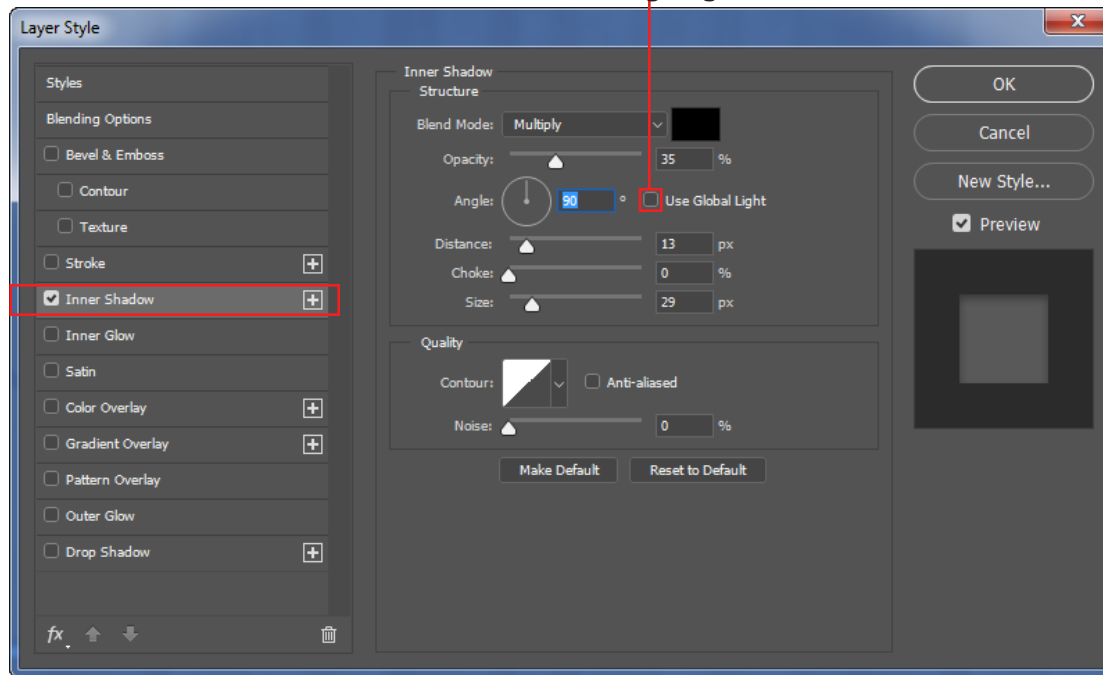

Fig. 6 -1

Make Sure to uncheck this box, if you don't then the shadow will be control by the Global lighting

Fig. 5 -2

You can that Layer Style also become sublayer that you can Show/Hide

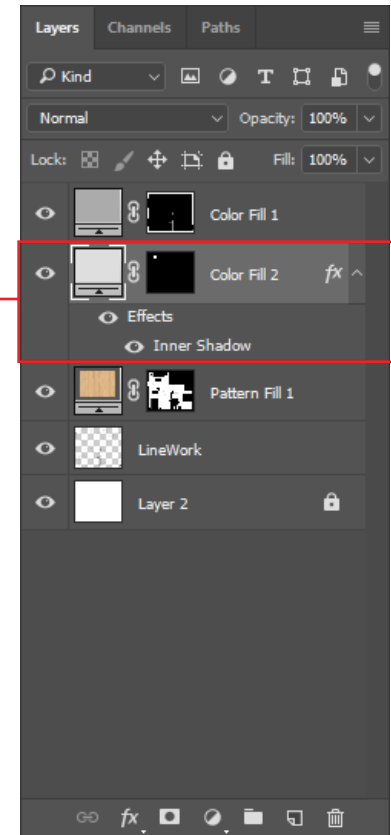

Fig. 7 -3

# Adjustment Layer W/ Gradient

**NOTE:** Select the regent where you need to apply Gradient

1. Select the regent by using the selection tools
2. On layer Tab, **adjustment Layer > Gradient...**
3. Select the Angle to project the Gradient.
4. Pick the color Gradient.

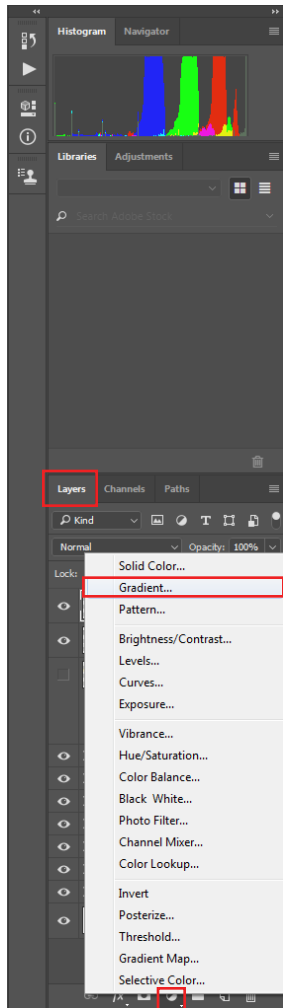

Fig. 9 -1

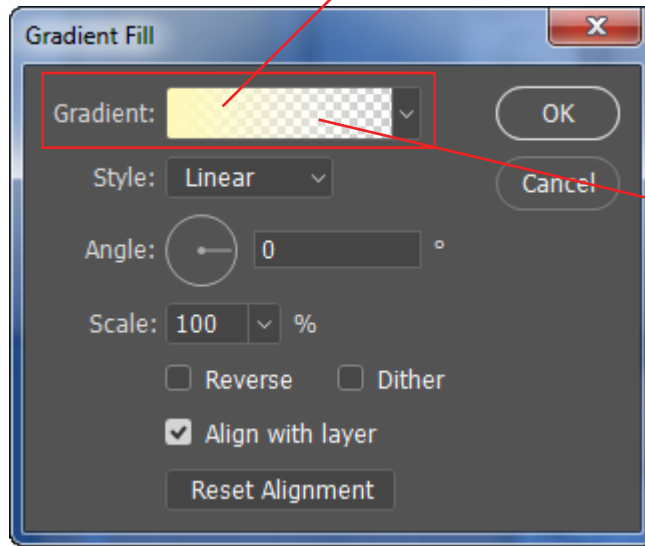

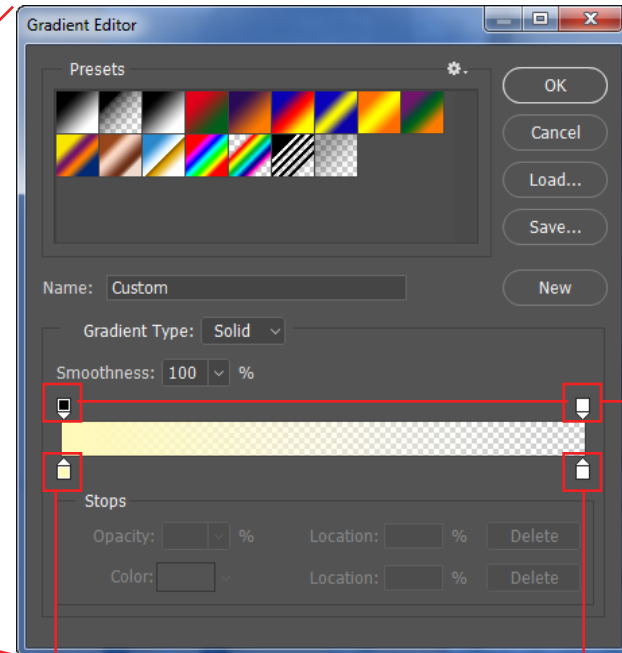

Fig. 8 -2

*Gradient Opacity, control the color opacity with Gray Scale*

*The Gradient Endings, control the gradient colors*
