                         1 lecture hour and 8 lab/studio hours, 5 credits

PROGRAM
For this assignment, you will

1. outline your program for your hostel, and
Your board should include the following:

- Program list/chart (program) with square footages

Program List

- Create a program specific to your hostel and start thinking of a theme for your hostel
- Use your site analysis to inform your theme
- Show a list of spaces and their proposed square foot areas, and list what is in each space, and special equipment, furniture
- Private or Public
- Daylight? A special type of lighting?
- You can produce additional diagrams/drawings as necessary to create/develop/explain your program

Once your Program list is created, we will work on the Matrix and bubble Diagram.
