INTERMEDIATE -

Arpad Baksa Architect, P.C. is a small, award-winning architectural firm located in Manhattan's Financial District. Responsibilities include a wide body of work across many different disciplines and styles. Currently, our projects fall into new construction, restorations, preservation, interiors and sustainable design. We are seeking a full time Intermediate Architect (5+ years of experience) who is creative and highly organized. The applicant should be local or within driving distance of downtown Manhattan. The ideal candidate should have the following skill set:

- An Architecture degree from an accredited school
- Experience in all phases of design, from conceptual design to construction documents, including construction detailing for both interior and new construction
- Basic understanding in write specification
- Ability to review shop drawings
- Strong proficiency in using AutoCad and Photoshop
- Basic proficiency in using Microsoft Office
- Proficiency in Revit
- Legal authorization to work in the U.S.

Please email cover letter, resume, and select project images and drawings in a PDF format to info@arpad-baksa-architect.com with "Intermediate Architect 5+" in the subject line. Max files size 5MB.
