

ENTRY LEVEL JOB

Local Brooklyn construction firm specializing in glass and metal work, such as building facades, storefronts and railing systems, looking for candidates for entry level position in estimating department.

Will learn how to perform quantitative material takeoffs, prepare cost budgets and assist the department in preparing proposal presentations for general contractors and real estate developers in the NY metropolitan area.

Requirements:

- 1. Degree or proof of substantial completion (in or entering final semester towards degree) and satisfactory performance (3.0 minimum average) of course work leading to an Associates or Bachelor Degree in Architecture, Engineering or Construction Management.*
- 2. Proficiency in Microsoft Excel, AutoCAD and Adobe Creative Suite.*
- 3. Experience and understanding of Bluebeam and Revit, proficiency is considered a plus.*
- 4. Provide resume, transcript, and one (1) related paper or presentation to demonstrate skills and proficiency.*
