

Seeking Architectural Student Intern:

We are looking for a creative and motivated student. As an intern, you would have the opportunity to work on a variety of projects as a fully collaborative member of the team, from initial design studies to construction documentation.

- A student currently enrolled in a Bachelor's or Master's degree program in Architecture or Interior Design, preferably someone who has completed a third year of an undergraduate program or first year of a graduate program.
- Able to work both virtually and in-office and on job sites
- Experience using Autocad and Adobe Creative Cloud (Adobe Photoshop, Illustrator, InDesign). Experience with 3-D computer rendering skills is a plus.
- A self-starter who is collegial, diligent, and eager to learn about the day-to-day realities of a career in architecture.
- Someone who takes their work but not themselves seriously, loves cats, and would enjoy a small-office culture.
- Someone with great communication skills who is comfortable sharing ideas and asking questions. Readers and thinkers preferred.

Other: Our office is working in a hybrid model of both WFH and in the office. You may be asked to attend project site meetings in and around the NYC area (including Westchester and the Hamptons).

Interested qualified candidates can send their resume and work portfolio in PDF format to jobs@plandesigngroup.com with "Student Intern" in the subject line.
