

We are a global architecture, engineering, planning, and technology firm defining the cities of tomorrow.

By connecting design and technology, we change how people experience their built environment. We work across disciplines to create the intelligent systems, sustainable buildings, and efficient infrastructure that shapes the way people live, move, learn, and heal.

With over 3,000 employees and 60+ offices around the world, we understand what it takes to work locally and scale globally.

At IBI, we're defining the cities of tomorrow.

Architectural Intern – Education – Summer Internship (2-3 Months)

Words like – motivated, enthusiastic, collaborative, independent, willingness to learn and take initiative – describe our ideal student candidate.

What's in it for you?

- Work with, learn from and be motivated by industry professionals
- Play an integral role in projects
- You will be treated like any other member of your team; not “just a student”
- You will be given as much responsibility as you show us you can handle
- Direct industry exposure in your field of study
- Access to our student community – Campus Connex
- Potential part time employment during the school year and full time permanent opportunities upon graduation

Where will you be working?

Our offices in New York City and Binghamton are each looking for an architectural Co-op Student to join our Higher Ed and K-12 Education Teams. In this role, you will be a part of the design team for a very well-established Architecture group. We are currently in a work from home model during COVID-19, but when we do return to the office we're located at 33 Irving Place in New York City and 59-61 Court Street in Binghamton. The New York State office has over 35 employees and is one of the larger offices in IBI's USA East Region. You will ideally be local to New York City and Binghamton and able to work remotely until we return to the office.

Responsibilities:

- Work under the direct supervision of a senior staff member
- Preliminary design development stage of current Educational projects
- Conduct Revit drafting
- Conduct design presentations
- Aid with client presentation preparations

Qualifications:

- Currently enrolled in an accredited Architectural program (ideally 3rd or 4th year)
- Knowledge of various drawing software (AutoCAD, Revit, SketchUp, Rhino)
- Experience with Revit is essential
- Knowledge of Microsoft Suite (Outlook, Word, Excel, PowerPoint)
- Knowledge of Photoshop and other Adobe Suite Software

- Rendering skills are also advantageous
- Ability to work independently as well as part of team
- Excellent written and oral communication skills
- Strong time management and organizational skills
