

Ashley recreates a white t-shirt to symbolize who she is through her gender, dress and where she stands in society. In her recreation she uses the color hot pink which maybe symbolic to a multitude of things but to her the color represents her bold energy that doesn't go unnoticed. Always sure to make a statement, hot pink also expresses a sense of youthfulness and vibrancy. Ashley is a strong believer that your youth is a learning experience. With age comes knowledge and understanding, which may result in the change in her way of dress as she ages. The fabric used for her t-shirt consists of mesh, polyester, and spandex formed into origami shaped flowers. Origami is known to be a symbol of hope and healing during challenging times. Challenging times for her right now are the balance of school, work and planning life after graduation.
