

Photo FYLC Paper #1
Sources

DUE: Submit paper in class by Monday, September 26th

Your paper should be 2 double-spaced pages (no more than two pages), 1" margins, 12-point type (Please use Arial, Helvetica or Times).

1. Please read the following article (a link is located on the class website).

Reichl, R. (1996, March 10). Lives; Why I disapprove of what I do. *The New York Times*. Retrieved from <http://www.nytimes.com>.

2. Write a 200-word essay that addresses the following:

- Does Ruth Reichl's relationship to the hospitality industry connect to your own views of the restaurant business and dining out?
- Do you think photography has influenced the hospitality industry?

3. Find **two sources** for potential research on the connection between food industries and photography. For example, if you were to write a long paper on the impact of photography on hospitality and related industries, locate two articles or books that you might use. Submit these two sources in APA format (the format used in Hospitality to cite references). Please do not cite blogs or videos, only cite sources that are from newspapers, professional journals, or books. The Ruth Reichl article cited above is listed in APA format.

What is APA format? This is the format used for citing references in the sciences, and in Hospitality Management. The correct citation of references is an important skill for your academic career. For an overview of the APA format, go to this website:
