# 3D Art Fundamentals

- Maybe the whole class knows all this already?
- Define: Verts, Edges, Faces, Polys, Mesh, Texture, Material
- More Terms: Albedo, Culling, Normals, Alpha, Shaders

# 3D Art Tools

# 2D Art Tools

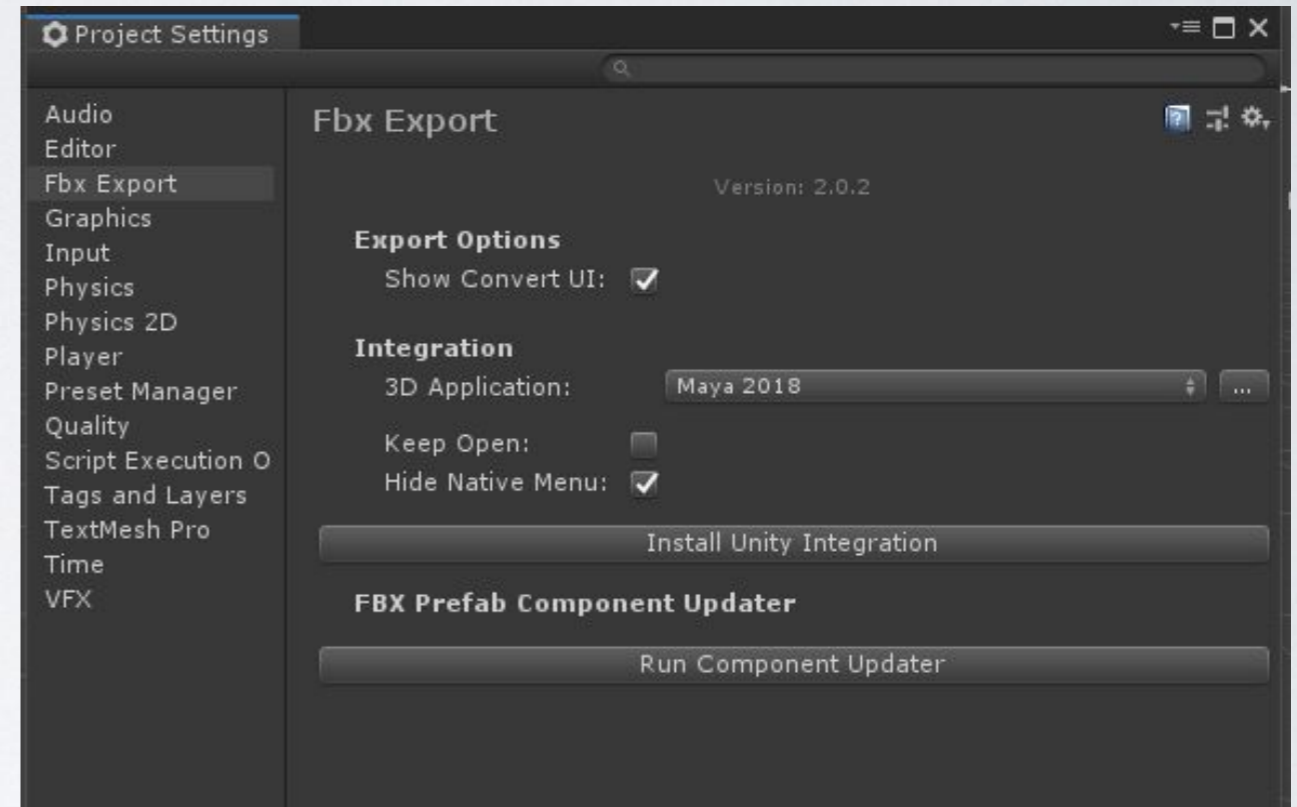

# Unity File Formats

- 2D

- Can't use .gifs or .svg
- .png or .jpg is best

- 3D

- .blend & .maya files directly supported, but require a local install - terrible for teams
- .fbx is best, .obj usually also fine

# Quick Assets: 3D

- Google Poly
- Turbosquid
- Sketchfab
- CGTrader
- free3d.com
- Kenney!

cgtrader

Sketchfab

Poly

# Quick Assets: 2D

- Google Images
- OpenGameArt
- Spriters Resource
- Kenney Again

# Demo Time?

# USUAL DEV WEEK 2

## HOMEWORK

- Continue development!
- Make appointment for a Midterm Meeting on Calendly: [calendly.com/sjklevine](https://calendly.com/sjklevine)
- (Recommended) Finish adding initial round of 2D or 3D art resources to your project repo
- (Totally Optional) Blender & Sprite Tutorials - See OpenLab

# HOMEWORK CLARIFICATION

- Start development w/ initial commit to repo!
- Make appointment for a Midterm Meeting on Calendly: [calendly.com/sjklevine](https://calendly.com/sjklevine)
- Recommended:
  - Add an initial round of 2D or 3D art resources to your project repo
  - Initial tasking added to issue tracker (Trello)
- Optional:
  - Unity Tutorials - See OpenLab
  - Blender & Sprite Tutorials - See OpenLab
