## COMMENTS

- I understand that this course was originally designed for two days, but compressed to one day. For full benefit, it really should have been a two day course.
- Enthusiasm of the presenters enhanced the experience and learning.
- All of the presenters (Michael, Dean, Dennis, and Illya) were excellent, well-spoken, and deeply knowledgeable on the course material. Given the challenges of consolidating this normally two-day course into one day, they engaged the participants with the design charrette exercise.
- Best of the sessions at the convention this year.
