

EcoFest 2021

Respect Restore Reflect

180-Second Video Challenge (Open to Students and Faculty!)

Let's turn this world around! Show us how we can do a 180! In a 3-minute video, tell us how we can change the trajectory of the world and move to a more sustainable future.

The purpose of this video challenge is to show the world what City Tech superheroes are thinking of to better our environment. What are you interested in? Is it, Innovative Energy, Environmental Justice, Communication and Cultural Arts or Policy, Law and Regulations?

Your movie will be posted on our YouTube Channel and will play during this year's City Tech's Earth Day Conference, EcoFest 2021 'Respect, Restore, Reflect' on April 22nd, 2021. Your audience and judges will be your peers, scholars, and professionals in your field.

1. Your video should start with a 5-second "title screen" that includes the Project Title your name (or names if working in groups)
2. Your video should convey your ideas on how we can reverse our negative impacts on the environment.
3. You can record yourself and your friends and/or use material from the internet. Make sure to cite your sources (including music) at the end of your movie.
4. Video entries should be 3 minutes (180 seconds) long.
5. Save your video as a .MP4 file. Use the following format to save your video:
FirstName LastName_Project Name_ECOFest2021.mp4
6. Upload your video here:
<https://tinyurl.com/ECOFEST2021-180SecondChallenge>
7. Watch your video and 'Like' your favorite videos here:
<https://tinyurl.com/180SecondChallenge-Videos>
8. Join us on April 22nd, 2021 as we watch the countdown to the most 'Liked' videos at EcoFest 2021 'Respect, Restore, Reflect', City Tech's Earth Day Conference.
