Illya Azaroff speaks with former Secretary of State and retired General Colin Powell at the AIA Convention. Denver, Colorado

AMERICAN INSTITUTE OF ARCHITECTS VICE PRESIDENT OF DESIGN EXCELLENCE

Serving as Vice President of Design Excellence at the New York City American Institute of Architects Chapter, Illya was able to foster many relationships between professional societies and develop phenomenal event ideas to engage architects and others within the professional field. In this function, he was instrumental in making possible a long term collaboration between AIA, the Centre for Architecture and the Consulate General of Switzerland. Illya demonstrated a profound knowledge and keen interest in the architectural and design landscapes in Switzerland. He was one of the young professionals selected in 2010 for a field study trip to Switzerland, financed by the Swiss Foreign Ministry.

"Thanks to Illya's active interventions, I could bring to New York numerous Swiss architects and several exhibitions, thus contributing to a very fruitful scientific and cultural exchange between Switzerland and New York." - Catherine Scharf | Deputy Regional Coordinator for Canada, Mexico and Northern Caribbean | Federal Department of Foreign Affairs FDFA
