

# Homework 3

## Multi-Panel Comic

# Project 2

## 4 Panel Comic

- **Objective:**  
Write and draw a traditional 4-panel comic strip.
- **Process:**  
Begin by sketching thumbnails & writing ideas for 4-panel comic strips. Don't worry about being funny and drawn loosely but legible enough that they can be understood: you will clean them up for the final.

# Week 1

## Develop Your Ideas

- In your sketchbook you should draw one 4-panel comic strip each day, so you will have at least six ideas by next week.
- Aim for graphic simplicity, clarity, and consistency.
- Use 4-panels for each strip, with each panel being equal size.

# Week 2

## Pick One And Finish It

- Peer critique to select your final idea
- Edit based on feedback, sketch more versions
- Pencil to Ink (traditional or digital) Final 4-panel strip

### Requirements:

- Work should be of 'finish quality'
- Work must be done in traditional or digital media
- Work should be finished at class time
- You may use the templates provided
