Dear Katya,

I am writing to express my interest in a position with this store location however, a different role. I believe I am qualified for this position because of my past experiences, along with my determination to grow and learn. My past experiences have allowed me to develop great communication and problem solving skills, whether it be a customer or fellow co - worker. Many of my previous positions were in fast paced environments, which has helped me with multitasking and making sure everything is done on time. Time management and organization are very important to me. Being that I am determined to grow and learn, I am always willing to take on new tasks and challenges. I have also gained a great understanding of harvesting and maintaining client relations along with the importance of visual merchandising and the store image, coming from a luxury background.

Being a fashion student, and having a luxury background, has drawn me to Louis Vuitton and I am happy to be a part of the company, hoping I can grow in different areas. It is an iconic brand, with a rich history that has been around for over a hundred and thirty years. The brand has truly identified the meaning of timelessness, by introducing the world its trunks, and monogram canvas.

Although Louis Vuitton has been around for many years, it has found a way to remain modern, relevant, but has not lost a sense of its brand identity, which I think is

great. I truly admire the direction that the brand is moving in and think I would be a great addition to the Visual Team.
