

ENG 1101 and SPE 1330
Video tour assignment
Fall 2013

For Project 4 in ENG 1101, you are crafting a comparison of two stories about a location within walking distance of City Tech, and in Project #5, summarizing, revising, and reflecting on that work. For SPE 1330, you will be preparing and presenting a persuasive speech considering why that location should be added to our next walking tour. That next walking tour is going to be virtual, so instead of us walking together as a class, you are going to **create a video** of the speech being delivered at the actual location to share with the rest of the class. Your video should record a 4- to 6-minute persuasive speech—visual aids optional—that presents a value, fact, or policy proposition as discussed in SPE 1330 in preparation for your persuasive speeches. In fact, your speech for this project can be a revised version of your persuasive speech, keeping in mind that it needs to address any critiques you received from your instructors or fellow students. You can work in groups to record your speeches, but all speeches must include one and only one speaker.

To prepare for this assignment, you will need to submit a revised outline based on the feedback you have received.

We have already use our shared Google map to pinpoint the locations of our tour stops. Submit your video by uploading it to YouTube and embedding it into that pinpoint on our map. On the last day of class, we will view the videos together and provide final critiques.

Requirements and Schedule of Due Dates:

12/9: revised outline

12/16: upload video to YouTube, and add the link to the pinned location on the Telling Brooklyn Stories Google map

12/18: video review and awards ceremony
