Dear Ms. Grande,

I want to inform you on about the photo shoot we had last week in New York at Beautify's agency. Since we released your photos in Beautify magazine sales have gone up tremendously by 40%. From the comments on our website we see that consumers were very pleased with your images. Readers liked the various outfits you wore, jewelry, shoes and poses you did.

We would like to thank you for working with us and also for your hard work and determination to get produce great poses, so we could get perfect shots of you for our magazine cover and article. You're a wonderful role model for the younger audience. You're showing them that you can accomplish their dreams at a young age. Like you did from being on Broadway, to acting on television, to having top hit singles by the age of 20.

Keep up the good work in your career. We will always be fans of yours and support you. It has been a delight working with you Ms. Grande and we would love to have you back in the future for another issue.

Thank you for everything it has been greatly appreciated!

Sincerely,

Brittany Gilkes
