Professor Trofimova

Documentary Paragraph

Since my family doesn't speak English, I am going to interview my little sister who is a 3-grade student in elementary. First, I will use a light music or piano music to take a tour of my house and see what my family and I preparer/stockpile for the coronavirus. The last stop will be my sister's room and I will interview her about what she thinks about coronavirus. In class, the professor asks us to go out somewhere that has social distance and take a shot in the video if we can. However, I can't go out for it, my family doesn't let me out to these places because is too many people and dangerous.

After I change my mind, I want to take a shot of the alarm clock remain that is morning time and I will wake up in the video and open my curtain. And then I will change the scene to my door and open it walk to my sister's door. I will ask her to open the door and interview her with some questions about the coronavirus. After the interview, she and I will take a tour of our house. Last but not least we will back to her room and the scene turn to the night and said good night to everyone. And be safe everyone.
