

Only eMenu has the **proven expertise** to meet your restaurant's specific needs

• *Providing profitable solutions since 2005*

# MY COMPANY EMENU INTERNATIONAL

The company I work for is called Emenu International. They are in various locations around the world. The New York location is a small size company consists of 5 people, with the help of several other people from Israel. Since the company is originally from Israel they are well funded and supported from there first location. The location is on 40th street, New york, NY. It is a private company.

Emenu is a Company that provides interactive menus for restaurant. All of their clients are restaurant owners

from big to small mom and pop's shops. My position within the company is a graphic designer/ data entry. Since this is a start up company here in New York there is not one permanent position. You will have to multi- task and be able to do more than one thing.

Emenu International, formally Conceptic was funded in 2005. From that time until now they have raised to over 1500 establishment in revenue. They are now in over than 15 countries. By taking plain menu paper to the next level emenu has out shine the rest.
