Health Sciences Department

As a member of Health Sciences Department you will join a group of students who are part of the School of Professional Studies at New York City College of Technology, City University of New York.

Degrees

The Associate in Science (AS) in Health Sciences degree gives students an understanding of the career possibilities in healthcare and how their particular interests fit into the range of occupations within the health care industry. This degree is open to the general student body who are in good academic standing.

The Bachelor of Science (BS) in Health Services Administration prepares students for entry-level administrative positions within health service organizations. This degree is open only to senior level students who hold at least an Associate Degree AND who are licensed healthcare providers or individuals with the equivalent of two years, full-time work experience (that is discipline relevant) in a health care facility.

Faculty in the Health Sciences Department

Josef Bohm, Associate Professor, Chair
Karen Bonsignore, Associate Professor
Brigida Hernandez, Associate Professor
Kathrine Gregory, Assistant Professor
Noemi Rodriguez, Instructor

Faculty members have comprehensive career backgrounds in administration, public health and professional disciplines. They are dedicated to helping students put together a range of career development skills by working with them from admission to graduation.

Students in the Health Sciences Department …

Students make use of state-of-the-art instruction materials and have the availability of the College’s significant technological and information resources including:

- A learning management system, BlackBoard©, an interactive Internet-enabled technology connecting students and faculty for on-line learning experiences
- Smart Classrooms for ‘hands on’ experience and learning opportunities
- A program that emphasizes “process education” where students are encouraged to master self-directed learning
Options for Employment
Graduates will be prepared to enter the challenging and fast-growing world of health care in a variety of settings. Significant employment opportunities exist in hospitals, health care agencies, nursing homes, insurance companies, medical/dental clinics, and managed care organizations.

Options for Further Study
The Health Sciences program provides students with an excellent foundation to continue their graduate education in health-related fields.

Fun Fact
✓ It is noteworthy that in 2020, the Health Services Administration program was recognized by GradReports as one of the best bachelor programs in healthcare administration: https://www.gradreports.com/best-colleges/healthcare-administration?atid=G2bG1SpRELNVTPCoxmoPwXqMyToM5MC3&utm_action=click
