## **Job Description**

### **Mission Statement**

- Consolidated Edison Company of New York, Inc. (Con Edison), Orange & Rockland Utilities (O&R), and Consolidated Edison Transmission (CET) employees are required to follow health, safety, and environmental policies, EEO, Standards of Business Conduct, and all other applicable company policy and procedures. We all share a responsibility to advance the company's mission by excelling at our three corporate priorities – safety of our people and the public, operational excellence in all that we do, and ensuring the best possible customer experience.

### **Core Responsibilities**

- Monitor environmental, health, and safety trends and regulatory developments that have the potential to impact Company businesses and industry and represent the Company on industry group environmental, health, and safety committees.
- Interact with a wide variety of corporate departments to ensure attention to climate-related issues, particularly as they impact the gas, steam, and electric commodities business groups. Provide in-depth expertise to support climate-related initiatives sponsored by the Vice President - EH&S.

- Develop long-term, trusting, and sustainable relationships with state and federal regulatory agency staff members to promote development of proposed regulations that support the Company's Clean Energy Commitment and service reliability goals.
- Represent Company positions to climate and EH&S-related industry groups to magnify the value invested in these groups and ensure, to the maximum extent possible, industry group positions mirror the Company's Clean Energy Commitment.
- Maintain scientific currency and fluency on subjects such as global climate change analysis, electric and gas industry health effects research, natural gas marketing strategies around reduced-emission gas supplies, and greenhouse gas inventory methodologies. Participate in professional advisory groups as industry technical expert as opportunities arise.
- Prepare, present, and defend white papers and slide decks to inform senior management and steering committees of emerging EH&S and Environmental, Social and Governance (ESG) issues, along with recommended postures to establish the Company as an industry leader.
- Brief all levels of EH&S staff members on emerging scientific and regulatory issues to support enhanced staff professionalism.
- Construct and execute work scopes for internal work teams and outside consultants on targeted projects that promote climate and ESG stewardship. Manage such projects to on-time and on-budget standards.

### **Required Education/Experience**

- Bachelor's Degree Engineering, Environmental Science, Biology and 8 years relevant work experience

### **Preferred Education/Experience**

- Master's Degree Engineering, Environmental Science, Biology and 6 years relevant work experience

### **Relevant Work Experience**

- 5-7 years Flexibility to deal with ambiguity and ability to work in a dynamic and fast-paced environment with experience in managing both in-house and contract staff members to produce targeted results. Required
- 8-10 years Experience in emerging issues in EH&S public policy, utility or energy field, regulatory strategy as well as experience in negotiating with stakeholders such as regulators, joint utilities, various levels of government agency interactions, and related industry groups Required
- Excellent verbal and written communication skill Required
- Knowledge of power market mechanisms Preferred

### **Skills & Ability**

- Experience in a regulated environment
- 

### **Licenses & Certifications**

- Driver's License Required
- Other: Professional certifications Preferred

### **Physical Demands**

- Must respond to system emergencies
- Must wear all necessary personal Protective Equipment (PPE), including; fire retardant clothing and safety harness

### **Other Physical Demands**

- Must be able to respond to Company emergencies by performing a System Emergency Assignment to restore service to our customers.

### **Technical Difficulty Statement**

- For technical issues, please contact us at [careerconnect@coned.com](mailto:careerconnect@coned.com)

## **Equal Opportunity Employer**

- Consolidated Edison Company of New York, Inc. (Con Edison), Orange & Rockland Utilities (O&R), and Consolidated Edison Transmission (CET) are equal opportunity employers. All qualified applicants will receive consideration for employment and will not be discriminated against on the basis of the individual's actual or perceived disability, protected veteran status, race, color, creed, religion, sex, age, national origin, gender, gender identity, gender expression, genetic information, marital status, sexual orientation, citizenship, domestic violence victim status, or any other actual or perceived status protected by law.
