Job Description

Mission Statement

- Consolidated Edison Company of New York, Inc. (Con Edison), Orange & Rockland Utilities (O&R), and Consolidated Edison Transmission (CET) employees are required to follow health, safety, and environmental policies, EEO, Standards of Business Conduct, and all other applicable company policy and procedures. We all share a responsibility to advance the company's mission by excelling at our three corporate priorities – safety of our people and the public, operational excellence in all that we do, and ensuring the best possible customer experience.

Core Responsibilities

- Support/Assist department goals by:
- As an Engineering Technical Associate (EP), you will work with a team of engineers to complete projects related to system analysis, design, standards, and engineering computer applications. You will also assist in providing a wide range of services including generator interconnection services, developing standards, analytics, program optimization, developing and onboarding new equipment, and system impact studies of the electric distribution system to support internal and external customers.

- Your assignment may include providing technical support, project management support, data collection and analysis, procedure reviews, design scoping and development support, work management oversight, or other operational support depending on the business needs.
- This is an interest posting to gather applications for Technical Associate candidates pursuing a bachelor's or master's degree in engineering or environmental science (as detailed below). After the application period is complete, the recruitment team will match candidate resumes to internal department requests. If your resume is a match for a specific department opportunity, a member of the recruitment team will contact you to share a more detailed job description and to schedule an interview.
- EPs will assist in providing solutions, technical expertise, guidance, and coordinating company forces that support the design, upgrade, and maintenance of the Con Edison Distribution system.
- Perform other related tasks and assignments as required.

Required Education/Experience

- Bachelor's Degree in Engineering or Computer Science and 1 year work experience and/or internship/coop with Coned.

Relevant Work Experience

- One year relevant experience (includes co-op or internships) Required
- Proficient in Microsoft Office products Required
- Must demonstrate ability to accept challenges and solve problems Required
- Must exercise good judgment and render sound decisions Required
- Must demonstrate a positive work ethic in support of the Company's Corporate Values and Missions Required

- Must have excellent oral and written communication skills Required
- Must be well organized, detail orientated and flexible to handle multiple assignments Required
- Must have excellent interpersonal skills to effectively interact with company employees. Required
- Ability to draft, edit and proofread memos, presentations and board reports as required. Required

Licenses & Certifications

- Driver's License Required

Other Physical Demands

- Must be able to respond to Company emergencies by performing a System Emergency Assignment to restore service to our customers.
- Must be able and willing to travel within Company service territory, as needed.

Technical Difficulty Statement

- For technical issues, please contact us at careerconnect@coned.com

Equal Opportunity Employer

- Consolidated Edison Company of New York, Inc. (Con Edison), Orange & Rockland Utilities (O&R), and Consolidated Edison Transmission (CET) are equal opportunity employers. All qualified applicants will receive consideration for employment and will not be discriminated against on the basis of the individual's actual or perceived disability, protected veteran status, race, color, creed, religion, sex, age, national origin, gender, gender identity, gender expression, genetic information, marital status, sexual orientation, citizenship,

domestic violence victim status, or any other actual or perceived status protected by law.
