

BNY Summer 2026 Internship Program Details

BNYDC's Summer Internship Program connects college-attending students and college-bound high school seniors to a wide range of paid internship opportunities with businesses within the Brooklyn Navy Yard. Over the course of an 8-week session, students will be connected to Yard-based businesses and departments according to their future career interests, skill sets, and educational background.

To Apply:

- Click here for the Summer 2025 Internship Program application: <https://bit.ly/BNYInternship25>
- Interns are selected based on their demonstration of strong communication skills, work ethic, and track record of commitment and achievement.
- Applications will be accepted on a rolling basis. The deadline to apply is **Friday, February 28th, 2025**
- Limited internships are available, so applications should be sent in as soon as possible. Applications accepted earlier in the process will have greater likelihood of matching to an internship role in their desired field(s).

Internship Program Details:

- Two 8-week sessions are available to accepted interns. Each accepted student is eligible to participate in one session:

Session 1: June 2 to July 25, 2025

Session 2: June 23 to August 15, 2025

- Accepted interns commit to a 40-hour work week with a one-hour unpaid lunch break each day, and are compensated at \$16.50/hr. This totals to 35 paid hours each week.
- Interns will participate in various mandatory professional development activities throughout the program.

Eligibility:

- A Brooklyn resident or attend a Brooklyn-based school
- A first-time or once returning participant in the internship program
- A current college attending student or a student enrolled in the following summer or fall semester
- If under 18, working papers must be provided. Working papers can be obtained from your school

Most common roles we will have positions available for are focused on business admin./management, computer science/IT, communications, culinary/hospitality, engineering, fashion, film, graphic design, green energy, marketing, social media management, sustainability, and more.
