Quote:

1. "The way it can evoke emotion, a usual image, a complex idea, or a simple truth." (Pg 1)
2. "It has become our language of intimacy, a different sort of English that relates to family talk, the language I grew up with." (Pg 1)
3. "That is, because she expressed them imperfectly, her thoughts were imperfect." (Pg 2)

Response:

1. This quote intrigued me because it made me realize how intricate and complex the human language is by simply speaking words with only sort of meaning. I agree that the human language can create many symbolic emotions, fear, hatred, love, or sadness.
2. This quote intrigued me because this can represent who we are as a person. How we talk to people in our lives are different. We talk different when we talk to our friends than our parents. I agree since it's a language style that people grow with based on who or where you live.
3. This quote intrigued me because it makes you wonder that words does not necessarily represent the exact thoughts in your head. Although the author learned their lesson I disagree with this statement because what you think compared to what you say always changes on the situations especially intimate ones.
